## ABOUT ME

Self-driven developer and AI enthusiast currently completing a Bachelor of Artificial Intelligence at UTS. I build production-grade web applications for real clients — integrating payments, authentication, databases, and APIs from the ground up. Passionate about AI tools, automation, and turning ideas into working products. Bring equal parts technical ability and commercial thinking from hands-on experience in sales and client management.

## WORK EXPERIENCE

### Freelance Web Developer

Jul 2025 – Present

#### Self-Employed

- Built full-stack web apps for Oven Soccer, Speed and Sport, Kingdom Property Care, and Think Wisdom
- Delivered complete solutions: Next.js + TypeScript front-ends, Supabase databases, Stripe payment integration, Vercel deployment
- Handled end-to-end client work — scoping, design, build, launch, and ongoing support
- Used AI-assisted development (Claude Code) to accelerate delivery without sacrificing code quality

### Kids Speed Coach

Oct 2024 – Present

#### Speed In Sport Australia

- Coached children aged 7–16 in sprint mechanics, movement patterns, and agility training
- Maintained a positive, structured environment focused on development and athletic progression

### Warehouse & Landscaping Assistant

Dec 2024 – Present

#### Garden Life

- Warehousing duties including packing, receiving, stock organisation, and delivery
- Supported landscaping projects involving plant care and site maintenance

### Internal Sales / Account Manager

Jan 2024 – Aug 2024

#### Graphic Art Mart

- Managed client accounts and performed cold outreach to grow business relationships
- Delivered tailored product recommendations, negotiated deals, and ensured high service standards

### Retail Assistant

2021 – 2023

#### Bunnings Warehouse
